

NOW FOR TRAINING

ROBERT AND JAMES BOTH ON THE GROUND.

So is the snow, but there is indoor work to keep them busy—Governor Sadler. Protrudes the Glad Hand When Fitz lands at Carson, but the Fiddle Pops. Not Having Yet Rattled Into His Orbit, Ejaculates "Kata" When He Tells Them to Just Watch Him do Corbett—Fight News—Sporting Notes.

Carson, Nev., Feb. 20.—Now Fitzsimmons has arrived at last and so the men that are to take part in the fight of the century are on the ground. Corbett went out to his quarters at Shaw's Springs this afternoon to stay until after the big event, and the men on once drove out to his training quarters at Carson, which is three miles from town. Fitzsimmons was met at the train by half of the population of Carson anxious to get a glimpse of the man who has the courage to meet Jim Corbett, for the latter, by his affable manner since he has been in Carson has won over the public sentiment to himself to a great extent. Fitzsimmons quickly pushed his way through the crowd and was soon taken away by his team, it being Julian's idea to establish him in his training quarters at once and work with him will commence tomorrow.

Corbett, as usual, went over to the opera house this morning, and put in fifty-two minutes wrestling and sparring with his training staff and gave them the hardest game since his arrival. He pushed them all hot and seemed to be not in the very best of humor. Corbett's wrestler is ill and is not doing as hard work as he would under other circumstances.

The contract was let for the lumber that is to be used for the erection of the pavilion, where the big match will take place, the afternoon, and the carpenters will commence work on it next week. Stuart has extracted a promise from the contractors that the building shall be completed before three weeks have elapsed, and men will be put on to work on the building that there will be no difficulty in carrying out his request.

An order was received from Redlands, Cal., this morning, for a block of fifty seats and this was the largest of the day although there were many other smaller ones.

Fitzsimmons expressed himself to an admiring crowd about him, while he was waiting for his team, to the effect that they would see him do Corbett up in good style on the morning, and the unimpeachable youngsters yelled "Hats!" and "Hats!" and made such a hubbub in the Carson people as to give Corbett and sentiment here is certainly with the Californian, who has made friends here during his enforced idleness in this city. The big crowd of people that has kept the carpenters from finishing Corbett's handball court, but he will now go right along without it, and, as he expressed it, "make up for lost time in short order" when the sun again smiles.

Newspaper headquarters are being established all over the city, and their enormous signs across the streets can be seen for miles.

Tonight the weather has cleared, with about five inches of snow on the ground, and no prospect of any more coming. With three days of sun it will be all gone.

FLAHERTY LICKS ERNE.

New York, Feb. 20.—Frank Erne of Buffalo, who a short time ago got a decision over George Dixon, the feather-weight champion, was beaten tonight by Martin Flaherty of Lowell, Mass., who gave him a drubbing which the Buffalo man will not soon forget. They met for a twenty-round contest, and Flaherty weighed in at 125 pounds, the stipulated weight. In the opening round Erne forced the fighting and continued in the aggressive until the tenth round, when he was roundly thrashed by Flaherty, who landed a hard left on Erne's left eye. Erne seemed to lose heart after that, and both of them were in a bad way at the end of the fight. The referee awarded Flaherty the bout.

FITZSIMMONS AT RENO.

Reno, Nev., Feb. 20.—Robert Fitzsimmons arrived from the east today. He was accompanied by his manager, the champion Grace-Roman wrestler of the world, Dan Hickey, Australian champion heavyweights, and Frank Fairchild, heavyweights.

He was met at the train by Martin Julian, his manager, who came down from Carson last night. The party left on the local for Carson's ranch, three miles from Carson, the place selected for the fight. Fitzsimmons' training quarters at Julian's started a plow and a snow brush this morning and will clear the snow off for a mile and a half of track for Fitzsimmons to take exercise on. Fitzsimmons and party, including his dogs, of which he has a number, got off the train and went at once to the Clarendon hotel. He looks in the pink of condition. It is said that the minute the Clarendon was closed down for two days in order to give the miners a chance to see the fight.

HORNBOSS WITH SADDLER.

Carson City, Nev., Feb. 20.—Today it was snowing again slightly, and snow plows were out on the main line between Carson and Reno. A large crowd braved the weather this morning to see Fitzsimmons arrive, but they were disappointed, as the Corbett man did not put in an appearance. He arrived by afternoon's train, however, and was met by an immense crowd of curious persons, the majority carrying cameras. When Fitzsimmons arrived, he remarked on looking from the window and seeing the snow descending:

"Corbett brought snow. I thought I would bring sunshine. This is one miss, but I don't expect to make another."

Governor Sadler was on hand to greet the pugilist and lent him an overcoat to highly polished his own make, and the quarters. Fitzsimmons presented the governor with a horsehair hat, and highly polished his own make, and the governor exhibits it with much pride.

DAN INVITES MOSSBACKS.

Carson, Nev., Feb. 20.—Director General Dan Stuart's condition was declared to be far improved last night.

Stuart is pleased with the announcement that there is a possibility of the Missouri legislature legalizing boxing, and a committee of that body has been sent here to see how the bill is conducted, so as to be in a position to make a report. He sent the following telegram to Representative Radie, who introduced the legislation calling for the appointment of an investigating committee:

"Dear Sir—In anticipation of the passage of your resolution, I have reserved for the use of your committee five of the best seats in the pavilion. Glad to have you come and investigate."

"DAN A. STUART."

CORBETT'S FORM.

These fights are being specially remarkable about Corbett's training and the improvement in his leg work, and the great attention he is paying breakaway hits and clinch blows, particularly the one-armed shove in the face at the quarters. He seems to be able to jump from any spot and at any angle, and land in position to defend himself from a blow. This leg strength, too, is enabling him to throw his body forward at a very wide angle, while he gives him an additional reach, allows him to come back from his opponent's punches without moving his feet from their original position.

SOUND AS A DOLLAR

NOT EVEN EXPORTING THE FAMOUS COIN OF THE DADS.

Major McKinley's Rapid Restoration to Health is Such as to Advertise that Autocrat of the Pillbox, Dr. Mitchell, as a Physician of no Mean Skill—Still, the Pileboxer Must Keep Away from the Counter Till the Major Gets a Bit Longer—Cabinet Gossip—Hanna Senatorial Stock Advances.

Canton, Ohio, Feb. 20.—"President-elect McKinley has fully recovered his accustomed good health," said Dr. T. H. Phillips to a representative of the Associated Press this morning, "and, I believe, is stronger than ever. That does not mean, however, that he will resume his receiving visitors promiscuously, as I have advised emphatically against that. What business the president-elect will give his attention to previous to his departure for Washington will be what has been partially arranged beforehand. Special visitors, or those who come by invitation from the major, will be given audience, but not a great deal of that will be transacted. The rest and freedom of official calls obtained in the past week has been most beneficial to him."

PRITCHARD WANTED BOYD.

United States Senator Jerry C. Pritchard of Marshall, N. C., reached here this morning. He was accompanied by Charles Prince of Salisbury, N. C., a prominent attorney, and counsel for the Southern Railroad company. Senator Pritchard said his visit had been delayed on account of his own illness.

"Some weeks ago," said the senator, "I forwarded papers and endorsements from my state asking that Colonel James F. Boyd be given a portfolio in the cabinet, either that of attorney general or secretary of the interior. Colonel Boyd is an attorney of ability and talent and would make an efficient official. I see that Mr. Gary of Maryland has been chosen as the southern member of the cabinet, and believe that Boyd will be perfectly satisfactory to the south and two men from that section of the country is hardly expected for the cabinet, I suppose Colonel Boyd will not be in the office."

"I am not here on any political mission other than to speak a good word for the opportunity offered."

Aside from Senator Pritchard's interview with Major McKinley and other visitors gained an audience. There were several callers during the morning but none were favored with an interview.

HUMBLE PIE FOR NEW YORK.

Canton, Ohio, Feb. 20.—While it is a hard day today, that Colonel J. J. McCook of New York will be invited to come to Canton in a day or two and confer with the president-elect upon being tendered a cabinet place, the attorney general position is not thought to be decided upon for the distinguished New Yorker. Postmaster general, navy and secretary of the interior, as well as attorney general are all believed to be under advisement, as indicated by the fact that the president-elect is still held the appointment of Mr. McCook will complete the full list of the personnel of the cabinet.

GAGE'S PRIVATE SECRETARY.

Chicago, Feb. 20.—Frank A. Vanderlip, managing director of the Gage trust, a financial paper of this city, has accepted the position of private secretary to Lyman J. Gage when that gentleman becomes secretary of the treasury.

BRADLEY GOES TO CANTON.

Philadelphia, Pa., Feb. 20.—The Times' Frankfort correspondent says Governor Bradley left this morning in response to a summons from Major McKinley to confer with him at Canton. The governor's trip is expected to be an important one, bearing on the solution of the senatorial situation in this state.

MAY BE HANNA AFTER ALL.

Springfield, O., Feb. 20.—The Gazette, which is regarded throughout the state as Governor Bushnell's official organ, today publishes an editorial which is construed by the governor's friends to mean that he will appoint Mark Hanna to succeed Sherman in the United States senate. The editorial is not specific, mentioning only that the governor has the appointment will be of such a character as to increase the harmony in the party.

INAUGURAL ARRANGEMENTS.

What Military and Civic Organizations are Doing to Get Ready.

Washington, Feb. 20.—Additional notifications are being received from clubs and organizations for the proposed parade in the inauguration parade, and when the procession moves it will probably be found to be unusually attractive in its military and civic features. If General Porter's intention to hold the parade at a given point at the rate of 12-000 an hour is successfully carried out, it is probable that the parade will not occupy over three hours.

Another colorful parade decorations has decided to adorn the approaches to the avenue on either side of the peace monument in an attractive manner.

Applications for places in the parade from club organizations are now coming in rapidly.

The Dupage county Republican club and the Chicago Republican club will bring 500 men. They will come by the Chicago and North Western railroad, and the Chicago Republican club over the Pennsylvania road.

Three hundred to 500 men, representing the Honored Money Democratic league, the Wage Earners' Railroad league, and the Law and Order Commercial Travelers' Democratic league, all of Baltimore city, and a number of the colored troops of the Illinois National guard, will be in line. The last named will be accompanied by the Ninth battalion of colored troops of the Illinois National guard.

Another colored organization, from Ash Grove, Va., has asked for quarters. General Wesley Merritt, commanding the military department of the Missouri, who will have command of the United States troops in the inaugural parade, has requested Colonel J. B. Babcock, assistant adjutant general, on duty at the war department, to serve as adjutant general on his staff.

TO CONFER OR NEGOTIATE.

Any War, Just as He Gets International New York, Feb. 20.—The bill recently passed by the senate authorizing the president to appoint commissioners to represent the United States in an international monetary conference to secure "a fixed or relative value between gold and silver as money by means of a common ratio between these metals, with free mintage at such ratio, or in his discretion, to call such a conference," was reported to the house favorably today by a unanimous vote of ten members of the house committee on coinage.

The same fact which voted for that bill in the senate today, the bill in the house committee today. Eight of the ten members present were free silver advocates. They were: Hartman of Montana (Ind.); Reed of Idaho (Rep.); Allen of Idaho (Rep.); Bankhead of Alabama, McRae of Arkansas, Sparkman of Florida, Spencer of Mississippi, Cooper of Texas, (Democrats). Chairman Dr. W. Stone (Rep.) of Pennsylvania and Mr. Fairbank of New York also voted for the bill, as were gold men or international bimetallists. There were five absentees. An amendment was offered by Mr.

Stone and adopted by the committee. It is as follows:

"He, the president, is further authorized, if in his judgment the purpose specified in the first section hereof can thus be better attained, to appoint one or more special commissioners or envoys to such of the nations of Europe as he may designate, to seek by diplomatic negotiations an agreement for the purpose specified in the first section hereof. And in case of such appointments so much of the appropriation herein made shall be necessary shall be available for the proper expenses and compensation of such commissioners or envoys."

"Section 3. That so much of an act approved March 2, 1895, entitled 'An act making appropriations for the sundry civil expenses of the government for the fiscal year ending June 30, 1896, and for other purposes,' as provides for the appointment of delegates to an international conference and makes an appropriation for their compensation and expenses, be and the same is hereby repealed."

The debate was very brief.

NAVAL APPROPRIATION.

New Battleship and Cadet Training Ship Out of the Bill.

Washington, Feb. 20.—The proposed new battleship and the composite sailing vessel of the Annapolis navy yard, which were stricken from the naval appropriation bill today before the bill was reported to the house by Chairman Boutwell. The committee today reconsidered those items, and struck them out by a vote of 8 to 4, which was practically a party vote, the Republicans present voting to drop them and the Democrats to retain them. Consultation with the speaker and other members of the house convinced the Republicans that there would be strong opposition to these appropriations.

There was a proposition to provide for several new torpedo boats, but this failed.

PAUL VANDERVOORT.

Gets to Memphis Ahead of the Reform Press Crew.

Memphis, Tenn., Feb. 20.—President Paul Vandervoort of the Reform Press association, has arrived in this city from Omaha. He will preside over the convention of the Press association which opens this city Monday. Other prominent members of the association have also arrived. The Reform Press association is what might be called an auxiliary of the People's party. Thousands of delegates who will attend will reach into the hundreds and nearly every southern and western state will be represented.

SOUND MONEY LEAGUE.

Will Hold a Session in New York City Next Wednesday.

New York, Feb. 20.—A conference of the National Sound Money League will be held at the rooms of the Chamber of Commerce in this city on February 24, and will be attended by delegates from a number of cities. There are now twenty-one cities represented in the organization, and it is expected that a number of delegates will be sent to the conference. The business of the conference will be to adopt a constitution and by-laws for the league and to elect officers and an executive committee to serve until April 1, 1898.

BLIZZARD IN THE NORTHWEST.

Also the Worst Snowstorms of the Season in Colorado.

St. Paul, Feb. 20.—A Grand Forks, N. D., special correspondent writes that this section is visited by another storm. Snow commenced to fall yesterday and as evening approached a heavy south wind prevailed and continued until late into the night, when it subsided about six o'clock this morning the storm of snow and wind resumed its reckless work and has developed into an old-fashioned blizzard. The accumulation of snow from several states in this direction at headquarters of the Great Northern and North Pacific railways have been expected by the officials. Nothing definite as to the situation has been received from the railroads. At headquarters of the Great Northern and North Pacific railways have been expected by the officials. Nothing definite as to the situation has been received from the railroads. At headquarters of the Great Northern and North Pacific railways have been expected by the officials. Nothing definite as to the situation has been received from the railroads.

While only five bills have become laws, 133 bills have passed either the house or senate. Ninety-three bills have passed the house alone, according to figures given to the correspondent for the Eagle by Chief Clerk Yeomans. The bills of the house have been hung up in the senate and vice versa, and they are ready to be hatched out into full fledged laws but they are comparatively few compared with the whole number. Sixty per cent of the bills passed in the lower house will not meet with the concurrence of the senate, and the lower house will "knock" fully as large a per cent of the bills of the upper house.

There is a strong Democratic element outside of the senate working earnestly against radical legislation and it will have its effect. A leading Democrat in territorial affairs told the correspondent for the Eagle today that out of the 400 bills introduced fifty of them are not become laws. He expressed the opinion that only few bills affecting monetary affairs will get into the statute book. The military bill will be knocked sky high, and the bill for the abolition of the territorial militia and was one of the bills passed by the lower house early in the session. If it should pass the senate congress would vote it into law. The bill was introduced by the Democrats of the upper house and they do not propose to have anything like that occur. Of course, they could pass the bill after congress adjourns and hence the bill would die. But congress is in special session, and if it is not, at its next regular session, would declare the law null and void. A leading member of the senate assured the correspondent for the Eagle that there is no fear of the bill passing the upper house and he, evidently, knows what he is speaking about.

The most important bill to be disposed of now is the quarantine bill. Disputes will fight over this bill and some fun is expected. The railroads and a few rival stock yards companies will take a hand in the matter and the result will be some considerable excitement. Strong men in both bodies have taken sides and a whole lot of men are on the fence waiting to be "convinced" as to merits of the case. It is probable that action on the matter will be delayed until the last days of the session, although it might be forced during the coming week.

The bill taxing the agents of breweries in the territory \$500 for each county they do business in is pending very prominently in the senate and the beer men are agitated. They talk in undertones and some of the more radical beer men are feeling, however, that the bill, which passed the house will not pass the senate. There is also a feeling that any further action on the bill will be delayed until the next session.

The school land leases bill is also causing some "talk" in the lobby. Outside of the politicians the sentiment is very strong against any change in the school land law. No appropriation be considered unless the territory too dead to skin. It is alleged that the whole proposition is a fraud and the interests of the politicians figures in it more conspicuously than the interest of the people. The interests of the boys and girls of Oklahoma for whose better education the books of the treasury by the Populist house is making the Democrats hot. They object to the word "investigation" and think it should not be any stronger than "examination." They claim that the word "investigation" carries with it a suspicion that there is something wrong, and hence they claim is unjustifiable. The resolution makes no provision for the examination of the auditor's books, and it is claimed that no investigation of the treasury books can be made without an examination of the auditor's books. In the meantime the Democrats are protesting against any action whatever on the school land bill, and are prepared to make a change of administration will bring about a squaring up of things more complete than any committee of the legislature could attempt.

ARBITRATION IS ALL RIGHT.

Put the Dove of Peace Feels a Lot Safer With Ruffed Grouse Handy.

New York, Feb. 20.—Colonel John J. McCook touched upon the subject of the arbitration treaty in the course of a speech at the annual dinner and banquet of the Alumni association of Lafayette college held at Hotel Savoy. There were about 100 present, including Colonel McCook, Governor John W. Briggs of New Jersey, Clay W. Hobbs of Illinois, Burr W. McIntosh, Alex. E. Holt, Jr., of New Jersey, and Dr. William M. McMurtrie, who presided. Colonel McCook responded to the toast, "Our Liberties," saying in part:

"These days of peace and arbitration treaties, I do not wish to say anything in favor of war, but the making of arbitration treaties will not prevent nations with whom we have no treaties from going to war. I am in favor of arbitration but I do not believe we can have an arbitration treaty unless we are prepared to defend her coast and send forth the best war vessels, so that she may keep the treaty and see that other nations keep it."

Yet longer a woman has been carrying the larger dollar grows to her.

TO HONOR GEORGE

WASHINGTON'S BIRTHDAY TO BE RESPECTED IN OKLAHOMA.

So Says the Legislature Over a Strong Objection From the Populists—A Poor Day's Work Done—Some More New Counties are Proposed—Of Course They are to be Carved Out of Woods Without the Consent of Its People—Seven Bills Passed Out of Over One Hundred That Have Passed a Third Reading.

Guthrie, O. T., Feb. 20.—(Special.)—The senate worked hard a day today and the house worked a little longer—neither one of them did anything worth recording. The senate effected a compromise between its politics and its patriotism by adjourning until 5:30 Monday afternoon, and then if by accident or otherwise if a quorum is not present it will adjourn until Tuesday morning. This is the way it has adopted of getting over the subject of the character of Washington's birthday as to whether it is a legal holiday or not.

In the house they had a great scrop over the same subject and eight Populists actually voted to have a full session of the house on the birthday of the father of his country. The Democrats led by Doyle made a hard fight in favor of paying due honor to Washington's birthday and, of course, the Republicans were all in for it. There is a heavy little of the sentiment of patriotism in Populists and they talked about the folly of such things as national holidays as if they were all Mohammedans. They would be as anxious to adjourn out of honor to the anniversary of the Haymarket tragedy at Chicago as they would out of honor to the birthday of Lincoln or Washington. In fact, they refused altogether to adjourn out of honor to the birthday of the great emancipator last week. The Populists of Oklahoma are a hard crowd.

Up to date seven bills passed by the present legislature have gone to the governor for his approval. Two of them have been vetoed and five of them have become laws. The last bill vetoed is the one abolishing the office of coal oil inspector, which is now filled by the governor's brother-in-law. In justice to the governor, however, it must be said that his action in vetoing the bill was not prompted by any friendship for his relative. He had a higher motive of interest to the territory in mind. It is said that by reason of unscrupulous oil men the rate of insurance would go so high that the expense to the people would be ten times higher than the expense of maintaining the office of territorial oil inspector. His action is approved by the business element and there is no fear that the legislature will override his veto. It is a fact that if the question of passing the bill over the veto came up in the senate it would not even get a majority much less a two-thirds majority. All the Democrats would vote to sustain the veto.

Two more bills have been introduced to make new counties with the names of Hancock and Union. Two weeks ago a bill was introduced creating Bryan county. All the proposed counties involve the territory of Woods county, and all the bills have been introduced by members who do not represent that county. In fact, the members from Woods county are strongly opposed to such measures, and so are the people.

While only five bills have become laws, 133 bills have passed either the house or senate. Ninety-three bills have passed the house alone, according to figures given to the correspondent for the Eagle by Chief Clerk Yeomans. The bills of the house have been hung up in the senate and vice versa, and they are ready to be hatched out into full fledged laws but they are comparatively few compared with the whole number. Sixty per cent of the bills passed in the lower house will not meet with the concurrence of the senate, and the lower house will "knock" fully as large a per cent of the bills of the upper house.

There is a strong Democratic element outside of the senate working earnestly against radical legislation and it will have its effect. A leading Democrat in territorial affairs told the correspondent for the Eagle today that out of the 400 bills introduced fifty of them are not become laws. In the meantime the Democrats are protesting against any action whatever on the school land bill, and are prepared to make a change of administration will bring about a squaring up of things more complete than any committee of the legislature could attempt.

HOUSE IN DETAIL.

The house this morning discussed at some length whether it should hold a session Monday Washington's birthday. It seemed at last palpable that if they adjourned in the regular way the adjournment would hold until Tuesday anyway for the law would observe its legal holiday.

The house passed the marriage bill, in which one cannot marry his mother-in-law, white and colored cannot marry, and Indians and whites cannot marry. The resolution investigating the territorial institutions of learning was passed. The resolution asking for the investigation of the treasurer's office was discussed at great length. It was contended by Mr. Rose and other Democrats that it was hardly just to have an investigation when no information has been given that there is anything wrong. It was casting an aspersion on the treasurer without sufficient cause. Others argued that no insinuations were cast, but that the people had a right to know how any public officer was doing his duty. The resolution passed by a vote of 15 to 5, six being absent.

BILLS INTRODUCED.

The following bills were introduced: By Mr. Harrison—House bill No. 12, an act to change the boundaries of Blaine, Grant and Carter counties, and other purposes. By Mr. Harrison—House bill No. 243, an act to create the county of Hancock and for other purposes. To be read a second time.

By Mr. Clark—No. 244, an act to prevent official speculation in the public revenue. By Mr. Clark—No. 245, an act amending section 1, of article 11 of chapter 14, of the act entitled, "an act providing for the incorporation and government of cities of the first class." Adopted.

The election of officers will be the first Tuesday in April, and every two years thereafter. The city council, however, shall have power to make the election every year, and to make the mayor also police magistrate if it so desires. By Mr. Allen—No. 246, an act to authorize the South Canadian Bridge company

SAPOLIO

COUNCIL IN DETAIL.

In the council this morning bills on sundry reading were referred to the following committees:

Council bill No. 141, to committee on judiciary.

Council bill No. 145, to committee on education.

Council bill No. 146, to committee on judiciary.

NEW BILLS.

By Mr. Edwards—Council bill No. 147, an act relating to civil procedure.

By Mr. Harrison—Council bill No. 148, to erect the county of Union out of portions of the counties of Woods, Woodward and D.

By Mr. Johnson—Council bill No. 149, to amend section 1, of article 11, providing for the incorporation and government of cities of the first class.

COMMITTEE OF THE WHOLE.

The council resolved itself into a committee of the whole to consider general orders of the day, with Mr. Marum in the chair.

Council bill No. 141, the school land bill, which stands at the head of the calendar, was postponed to await the action of the lower house on a similar measure.

Council bill No. 142, to protect the territory, counties, cities, towns, villages, school districts, townships and other municipalities against the fraudulent acts of their officers, was amended to correct the queen's English, and the bill recommended for third reading and final passage.

Council bill No. 129, empowering Rock Island township in Grant county, to levy a tax for the purchase and maintenance of a public work and other purposes, was favorably recommended for passage.

Council bill No. 8, to provide for the punishment of persons guilty of conspiracy and corporations, was also postponed.

Council bill No. 77, concerning real estate, and severing property therefrom, was favorably reported after amendment. The bill defines grant and petty larceny, and is especially aimed at persons removing mortgaged property with fraudulent intent.

The committee arose and reported.

A report from the committee on ways and means, submitted a resolution directing the chief clerk to require of the board of regents of the different territorial institutions an itemized statement of moneys required to conduct their institutions, and no appropriation be considered until such itemized statement is submitted.

Mr. Johnson moved an amendment to the rules that no bill be printed until ordered by the council. It was adopted.

The council then adjourned until Monday at 5:30 p. m.

HOUSE IN DETAIL.

The house this morning discussed at some length whether it should hold a session Monday Washington's birthday. It seemed at last palpable that if they adjourned in the regular way the adjournment would hold until Tuesday anyway for the law would observe its legal holiday.

Gehring's drug store, northeast corner Tupper and Douglas avenues.

ARBITRATION TREATY.

Not at all Likely to be Called up Again This Session.

Washington, Feb. 20.—Senator Sherman said today that he would not press the arbitration treaty in opposition to the election of officers, and it now looked as if all the time of the session would be occupied with these bills. Other senators who are leaders on the Republican side say they do not expect to see the treaty called up again this session.
